Tong Shu Wu Xin Daily Web site Tong Shu Wu Xin is the first time Chinese astronomy software in the world. It can support many planets, lunar and solar from Tong Shu (Inner Secret) for Wu Xin (Empowered Kin, Fortune), which can build a lucky time to connect with the universe, as well as daily prediction of the next period, time, and individual to improve person's life. FinancialFengjie SolarIn 1894, the year of the dog, the old book of Fengjie (astrology) was compiled, and it clearly shows that the year of the dog is a lucky period of a man. In the previous years, the dog was a luck-bringing animal, but it was not clearly written that it was the lucky period of a man. Even now, it is still a popular Chinese astrology book used for fortune telling. Since the year of the dog is a good year for fortune, it is a very good time for a man to study Fengjie. FutureShanghai International Fiber OpticsWhole-face 3D laser scanner based on a patented technology and a unique 3D mapping method, combined with deep learning technology, our 2D scanning solutions are suitable for civil projects, inspection of high-tech devices, laser scanning of non-metallic materials, and other industrial applications. WealthTechnologyKangmei TechnologyKangmei Technology is one of the largest leading manufacturers of scanning solutions. The company's motto is "Build Your Future with Knowledge". Based in Shanghai, it's an excellent choice for modern clients. technologyKangmei TechnologyKangmei Technology is one of the largest leading manufacturers of scanning solutions.
